November 23rd, 2009

To Whom It May Concern,

The Riverside Police Officers' Association would like to announce its endorsement of Ken Calvert for California's 44th Congressional District. Congressman Calvert was a small business owner, has a bachelor's degree in Economics, and has served us in Congress since 1992. He has served on numerous committees, including an Energy subcommittee, the Science Committee, Agriculture Committee, Armed Services Committee, and the House Appropriations committee.

Congressman Calvert has served us well, including ensuring that the March Air Reserve Base, a significant employer in our region, remains relevant and vital to the armed forces. He has worked on energy projects, including an issue critical to our region that is not talked about very much, our water supply. Congressman Calvert is working on transportation issues at ports of entries, including the related vehicular and train traffic that affects our region.

Congressman Calvert is the chair of the Intelligence Committee, helps to oversee our national intelligence agencies, and is part of our war on terror. He continues to work toward securing our borders and addressing illegal immigration issues. Congressman Calvert has helped to steer millions of dollars to local law enforcement. This includes money to gang enforcement, Methamphetamine interdiction and lab investigation, communications technology and equipment critical to public safety responses, and millions into the San Bernardino and Riverside County fingerprint system called AFIS.

Please join the Riverside Police Officers' Association in their support of a strong leader in Congress working hard for our region – please vote for Congressman Calvert.

Sincerely,

Kevin Townsend

RPOA Political Action Committee Chair
